*"I love helping others
build their connection with
horses"*

Australian Baroque Riding Academy (ABRA) is a brand new Riding Centre, located at a picturesque property reminiscent of Tuscany and Switzerland, but quintessentially South Australian.

With a unique combination of classical dressage and down-to-earth horse ownership, it is a beautiful place to be around horses who want to connect with humans.

Currently, ABRA teaches children and small adults, but the range is set to extend as the new Andalusian horse (in training) enters into the school. ABRA and its owner, Marie Matter can help people without a horse to complete the Pony Club certificates and reach their goals.

Meet the Owner

Marie Matter started riding from a young age, and has had an affinity for horses for as long as she can remember. As a lifelong learner and dynamic teacher, she has taught in Switzerland, trained with French classical dressage masters in the USA, and has a focus on equitation as an art form rather than a competitive sport.

*"I'm not just a riding instructor -
I teach all aspects related to owning
and caring for horses."*
